Membership Meeting Held By Southern States

James R. Ford, Jr. of Appomattox and E. W. Marshall, Sr. of Spout Spring were elected to the local Board at the Southern States Annual Membership Meeting held in Appomattox on July 24, 1974. Over 40 stockholder-members and their families attended the session.

James R. Ford, Jr. of Appomattox was named Chairman of the Board while E. M. Covington of Pamplin was picked as Secretary.

Elected to the local Southern States Farm Home Advisory Committee were Mrs. E. Marshall Stratton of Concord and Mrs. Robert C. Winston of Appomattox.

J. Watts Moore of Concord was chosen as chairman of the Farm Home Advisory Committee while Mrs. E. Marshall Stratton of Concord was named secretary.

John H. Goin of Appomattox was chosen as a delegate to represent the local membership at the Southern States Cooperatives 51st Annual Stockholders Meeting in Richmond on November 13 and 14. Eddy Covington of Pamplin was named alternate.

G. Maxey Slater of Richmond Virginia, a regional staff representative of Southern States Cooperative, in reporting on the overall operations of the co-op for the fiscal year ended June 30, told the session that volume was over $242 million and that it would pay a 3.1% refund on patrons purchases for the year. He pointed out that a number of steps taken by the co-op during the past fiscal year "helped farmers in the five states that the organization operates in, from facing a catastrophic supply problem."

These included such things as: (1) keeping fertilizer plants open and shipping last fall when it was evident that prices were going to be higher later on. (2) In spite of shortages of key raw materials in farm supplies, the co-op was able to furnish members about 22% more farm supplies after discounting for price increases. (3) In feed, the co-op was one of the few feed manufacturers which failed to ship a single ton of feed due to lack of diacalcium phosphate and other phosphate materials. (4) The co-op's seed department was able to supply farmers with high quality seeds in spite of chaotic markets and tight supply situation in some areas.

Mr. Slater pointed out that the energy crisis, which resulted in a disruption of the co-op's petroleum service to members, brought Southern States and other co-op's across the nation to form the International Energy Cooperative. The IEC has as its objective the development of farmer owned and controlled sources of crude oil for co-op refineries.

The report on local operations and services rendered to farmer members was given by Mr. Ronald Coleman, co-manager of Coleman and Sons, Inc.

There was also a special recognition ceremony for new board members, Farm Home Advisory board members as well as those from these groups who are retiring.
